DARING RESCUE ON THE BANKS OF NIAGARA

Human Chain Pulls Helpless
Man From the Rocks.

Niagara Falls, N. Y., July 18.—Truman Chapman, 22 years old, of Hamilton, Ont., was rescued from the very brink of the American Falls, tonight by four men one of whom took desperate chances to reach him. Chapman was sitting on the iron railing just above Prospect Point about 9 o'clock when he was seen to suddenly topple backwards and fall into the stream.

After striking the water Chapman's body lodged against two small projections of rock, and this undoubtedly saved him from almost instant death.

John Hughes, and Thomas S. Winders of Niagara Falls, Thomas J. Thomas of Toronto, and a fourth man who did not give his name leaped over the railing.

Hughes, Winders and Thomas formed a chain from the iron fence, and clinging to the unknown's hand enabled him to reach Chapman.

Twice the man at the end of the chain was swept from his feet, but he clung desperately to his helpless burden and the united efforts of the three men nearest, who had better footing, finally swung the two of them out of the grasp of the current.

Chapman, relatives said, was subject to fits, and undoubtedly was stricken while sitting on the railing.

MARION GETS BRACELET.

Young People Tender a Surprise Party to Miss Micott.

A merry party of young people gathered at the home of Miss Ellen Hurley on Thimble street on Friday evening where they tendered a surprise party to Miss Marion Micott. During the evening the entertainment was interrupted by William Donnell who presented Miss Micott with a handsome gold bracelet, a gift from those assembled. Instrumental and vocal music added much pleasure to the occasion and refreshments of ice cream, cake, lemonade and candy were served.

RIOTING SAILORS MAKE TROUBLE

Attack I. W. W. Headquarters in
Seattle and Loot the Rooms
of the Socialists

Seattle, Wash., July 18.—A party of United States sailors and sailors from the Pacific reserve fleet, most of the sailors wearing the name bands of the cruisers Colorado and California, started tonight to "clean-up the town" as they expressed it by attacking Socialist and Industrial Workers of the World headquarters.

A second party of men from the Pacific reserve fleet attacked the big Industrial Workers' headquarters on Washington street in the southern part of the city. The contents of the building were dragged into the streets and bonfires made of them.

A provost guard of fifty men from the fleet were hurried ashore in cutters to arrest all of the men ashore.

Secretary of the Navy Daniels was dining on the cruiser West Virginia the guest of Admiral Reynolds at the time the rioting began.

The men returned to the north part of the city after it had been dispersed and went back to the Socialist headquarters and sacked the place, destroying the furniture, and a large quantity of the socialist literature.

About a dozen sailors, all young, were in the first wrecking party to get under way. They were aided by several members of the Washington naval militia and by a hundred young civilians who made most of the noise. Waving United States flags the storming party swooped down on the news stand of Miller Price, a Socialist orator, at the intersection of the Fourth avenue and Westlake boulevard, the busiest high corner of the city. The cart was broken to splinters in a moment, and the big stock of Socialist papers were torn to shreds and thrown into the street and jumped on.

The mob then rushed to a story-

REVENUE CUTTER HERE FOR THE SECRETARY

His Visit to This Port Is
Shrouded in Mystery.

The arrival of the U. S. Revenue Cutter Andromeda at the navy yard this forenoon was somewhat of a surprise as nobody appeared to know just what her mission was at this station. Later the Herald man went aboard the vessel and learned that the commander of the ship, while lying off Camden, Me., had received a wireless message to proceed to Portsmouth to await the arrival of Secretary W. G. McAfee of the treasury department. Neither the yard officials or those of the revenue cutter had any information as to where the secretary was coming from, where he would sail for or when he would arrive. The cutter arrived late last night in the lower harbor after making a most excellent run in a heavy fog and rain.

UNITED STATES TROOPS.

Two Full Regiments Will Be
Present at G. A. R. Encampment.

Chattanooga, Tenn., July 19.—The Chattanooga Encampment Association is prepared to announce with the authority of the War Department that two full regiments of United States troops will be at Fort Oglethorpe for the 47th national encampment of the Grand Army of the Republic in September.

That regiments that will be here are the Eleventh Cavalry, already stationed at Fort Oglethorpe, and the Seventh Infantry stationed at Fort McPherson, Atlanta. The Eleventh Cavalry is recruited to 700 men, while the Seventh Infantry is recruited to 800, making a total of 1,500 men.

Special parades and drills will be given by these regiments during the encampment for the entertainment of the visiting veterans and their friends.

The Eleventh Cavalry is now on an itinerary through the battlefield section of Virginia, but Secretary of War Garrison assures the local encampment association that it will be back in Chattanooga before the G. A. R. encampment.

WITHDRAW THEIR DEMANDS

Railroads Now Willing to Let the
Mediator Board Settle the
Scope of Inquiry

New York, July 18.—The eastern railroads engaged in wage controversy with their 80,000 trainmen and conductors indicated tonight their willingness to leave with the board of mediation and conciliation appointed by President Wilson the decision as to which questions are to be submitted for arbitration under the Newlands amendment to the Erdman act.

In a letter to the leaders of the trainmen, the conference committee of managers said it seemed to them "that the immediate difference of opinion relating to the points to be submitted for arbitration, is a matter to be considered by the board of mediation and conciliation."

The managers in their letter of July 16 setting forth their eight grievances, referred to them as the ones which the railroads "intend" to have incorporated in the agreement to arbitrate. The roads in their letter to the men tonight, while describing their position as unchanged, expressed themselves as "willing" to refer their de-

in Commemoration of
Miss Farmer.

Sunday, July 20, at 3:30 p. m., at the Greenacre, Rev. William Lord of Dover, Mass., "Tolstoi."

Next week will be "Miss Farmer's Week" at Greenacre. The details of the program have not yet been definitely arranged to announce in full, but a later announcement will be made.

On Monday, July 21, at 10:30 a. m., Madame H. K. L. will speak in the Pines on "The Spirit of University."

On Tuesday, at the same time and place, Victor David Brenner of New York City, will speak on "The Six Great Statues of the World."

On Wednesday at 3:30 p. m., in the Elmhurst, John Kendrick Bangs will deliver an address.

On Thursday, in the Elmhurst, at 3:30 o'clock, Mr. J. E. Gleason will speak on "Chim."

Friday, Miss Farmer's birthday. There will be a symposium of her old friends, and a song service by Mrs. Mary L. Lucas in the Elmhurst at 3:30, followed by a basket picnic.

Should the weather be such as to make it inadvisable to hold the picnic, a while they will be held at the Greenacre today station and at the entrance to the Pines. This will denote that the meeting will be held in the Elmhurst.

BANQUET FOR TEAM.

Portsmouth Lodge Will Entertain Champions of Sunset League.

Portsmouth Lodge, No. 97, B. P. O. E., is making extensive plans for a banquet to the team that represented them in the Sunset League and were successful in winning the pennant. After the remaining games are played the members of the Lodge will entertain the team at its home on Pleasant street. The majority of the players are from out of town and the Elks will do everything for their convenience during the night of the blow out. The exact date of the time has not as yet been announced.

THE LEIGHTON MANSION

Mrs. Clarence H. Mackay of New York Leases Portland House.

A dispatch from Portland to the Boston Globe says that Mrs. Clarence H. Mackay of New York has leased the home of Ex-Mayor Adam P. Leighton, well known in this city, and is expected to occupy it in a day or two.

The Leighton mansion is one of the finest on Portland's beautiful Western Promenade. It was built about 19 years ago, and is brick and of semi-colonial architecture. On clear days the Presidential House and Mt. Washington, sharp against the sky line, are easily visible from the veranda.

STILL NO APPOINTMENTS ARE MADE

Governor and Council Hold
All Day Session Without
Result.

Concord, July 18.—The governor and council were in session at the state house all day today regarding various appointments to the state offices that still are unfilled. However no formal thing was held and the session was long drawn out and without any result.

They assembled this morning, but at 11:00 a. m. all were not present and but little if anything was accomplished. However, shortly after 3 o'clock when the governor returned to the conference, it was expected that something might materialize. Nothing came of the afternoon session and this evening when they had been assembled it was given out that no appointments would be made tonight.

They will probably meet tomorrow and there is a possibility that the business of today may be transacted, although nothing definite could be obtained.

SUPPER AND DANCE.

Residents of Rye Give Housewarming to New Management of Washington House.

A very pleasant occasion on Friday night, Rye Beach, Thursday evening, was the supper and dance given in the Washington House by the inhabitants of this section of the beach and their friends.

This once popular house had for a number of years been diverted from its original use as a summer hotel and used as a hotel. This season it has been reopened under the management of Mrs. Denison and Mr. Edmunds. The neighbors, wishing to show their good will towards the new management and as a public welcome, arranged the function of Thursday evening in the nature of a housewarming.

HIGH SCHOOL PRESENTED WITH A VALUABLE COLLECTION

Mr. Arthur Astor Carey of Little Harbor has presented the local school with a valuable collection of minerals, rocks and fossils, and the same has been accepted by Superintendent James N. Pringle for the Board of Instruction.

The collection contains 120 specimens, all properly mounted and numbered, and what is of more value, all catalogued. The catalogue contains a brief description of all the specimens and should be especially instructive to the pupils of the high school. In the collection are many fine examples of fossils of this country.

The collection will be placed in a cabinet at the high school building and it will be a valuable addition to that institution.

OLD SPORTS GATHER

New York, July 18.—Men who made records when American sport was in its swaddling clothes are making a three day's celebration of the 25th anniversary of the opening of Travers Island, the famous summer home of the New York Athletic Club. The first gathering of old time athletes there yesterday had something of the scenes and sentiment which marked the recent reunion of the blue and gray at Gettysburg. Most of the old men made some sort of pretense of going through the things they did when they were 25 years younger, and, as in the case of some, 200 pounds or so lighter.

This oldest living athlete, Ed Carter, was wheeled onto the track in a rolling chair, with a trained nurse protesting against his participating in the game. "Pop" as he is affectionately known, held for 23 years the American record for the five mile run and he insisted on being able to negotiate the 352 foot lap track once more. He started ably with an excellent stride, but he was panting from exhaustion when he returned to his wheel chair.

Harry Huerfroyer, the founder and first champion of the sprint, hale and hearty at the age of 71, was also on hand. He would not get into athletic togs, but he condescended to take off his hat and try a few shuttles with Herbie Wefers, and old rival. They fled at a respectable distance.

W. P. Downs, the phenomenal quarter miler of two decades ago, Hugh Baxter, once the greatest of American pole vaulters, Jim Mitchell, the old champion with the hammer

and weights and others were present. All of the veterans were presented at a banquet last evening with a commemorative medal of silver. The celebration will conclude tomorrow with a baseball game.

YORK BEACH

Plans are under way to have an excursion here from Raymond. A large number always came when the custom was followed and sports and games of all sorts were indulged in by the folks from that town. The York Beach nine is also desirous of meeting the Raymond nine, and as they would bring a large following the day of the excursion would be the most likely one.

Hezel Gundrich of Epping the celebrated soprano and violinist of the New England Conservatory of Music at Boston, returned through this town and called on Mr. H. H. Moran of Manchester, formerly of Supermarket Judge and Mrs. Wagner of Manchester, now enjoying seashore life.

CARRIGAN

Boston, July 18.—Bill Carrigan, who succeeds Jake Stahl as manager of the Red Sox, has a reputation around the American League circuit as one of the leading baseball strategists among active players. In the fight for the American league championship last season, Carrigan, with Capt. Wagner and Manager Stahl, formed a board of strategy, which directed the team's action. The new manager is 29 years old and a native of Lewiston, Me. He came to Boston from Italy Cross college in 1906 and has been with the Red Sox since, except for part of the season of 1907 when he played with Toronto.

ELKS TEAM OUT WITH CHALLENGE

Manager Jack Kelley of the Elks baseball team who have won the Sunset League championship, is out with a challenge for any team in the state. He stated last evening that the Elks team would like to arrange games with some of the teams in the Textile League in Manchester or any of the Concord Sunset league teams. Duver and Somersworth would also be considered, for Manager Kelley states that he has the best team in the state and is willing to back it up for fun, money, or marbles.

The Elks team are at fast bunch and against any team in this state should be able to give a good account of themselves.

Many of the local fans would like to see a nine inning game between the Elks and the P. A. C., as they are now playing with Wilbur and Treddick in the league. It would be a big drawing card for a Saturday afternoon game.

A POLITICAL EMIGRANT

Mexico City, July 18.—General Felix Diaz who has been appointed special ambassador to Japan to convey the thanks of Mexico to the Japanese for their participation in Mexico's centennial in 1910, is referred to today by the newspaper El Pais, in an editorial as "The Political Emigrant."

The article says that Diaz is being sent out of the country, and expresses the opinion that there will be no elections in Mexico within the time fixed.

It independently also frankly expresses the opinion that Diaz has been practically expelled, at least temporarily.

An unusual honor is about to be paid to the new Japanese minister by the Mexican government, which is sending a commission consisting of one representative of the Foreign office and two military attaches to meet him at the port of Manzanillo. Plans are being made for a huge popular demonstration on the arrival in the capital of the Japanese diplomat.

LOGICAL YOUTH

Raymond, according to a recent story, had been playing hard all day and came to bedtime thoroughly weary. In fact, he was so sleepy that he wanted to omit saying his prayers.

"But, dear," his mother remonstrated, "you must be a good boy and thank God for all His goodness to you. Just think what a nice time you've had all day, playing and remembering, all the other little boys who have no nice home or nice clothes or mother to love them."

Raymond's eyes opened a little drowsily, and out of his relaxed mouth came this protest:

"But, mother, I think them's the fellows that ought to do the praying."

MELLEN'S RESIGNATION
ACCEPTED BY DIRECTORSCommittee Appointed to Name His
Successor--Statement Issued.

New York, July 18—Charles S. Mellen's resignation as president of the New York, New Haven & Hartford railroad was accepted by the directors this afternoon.

The resignation will be effective upon the appointment of his successor, whose selection was left in the hands of a special committee.

The directors met at 11 a. m., instead of 1 p. m., was the first notice to the newspapermen of a change of time.

In an official statement issued in Mr. Mellen's behalf it was said that he had felt it necessary to resign because of the existence of certain disquieting possibilities for the New Haven road and its allied properties. He added that he felt that he had been justified in everything he had done and would not attempt to explain the causes that led to the disquieting possibilities.

The following committee was appointed to name his successor: J. P. Morgan, Theodore N. Vail, Samuel Hays, William Skinner, Edward McKim, and Robert Taft.

Statement By the Directors

On accepting the resignation the committee issued the following statement:

"The committee after considering

Mr. Mellen's statement, accepted his conclusion with great reluctance, and at the same time with full appreciation of his work.

At today's meeting the statement continues, "practically no business was transacted beyond the disbursement occasioned by Mr. Mellen's resignation and the declaration of the dividend payable Sept. 30, which is always declared at this time of year, the August meeting always being omitted. The quarterly dividend was at the rate of 1-1/2 per cent.

"No discussion whatever was had on the Prouty report. Further consideration of that matter was referred to the executive committee, which will meet on Friday of next week, when a draft for a reply to the report will be submitted by Mr. Mellen to the executive committee for its consideration.

LITERARY NOTES

The August American Magazine. The August American Magazine is a fiction number and loads off with the first installment of a new serial by Inez Haynes Gilmore entitled "Angel Island." Mrs. Gilmore is the author of the celebrated "Phoebe and Ernest" stories. The scene of this new story is laid on an uninhabited island where,

owing to a shipwreck, five men are stranded and there put to work out their problem under primitive conditions. In the course of the story five women are to be introduced into the community and the tale is to center around the solution under the various difficulties that arise. Mrs. Gilmore is an ardent suffragist, and while in her new story the romance is always paramount, the story symbolizes the whole feminist movement with a vividness, a concreteness, impossible in the most ably written narrative of fact.

John A. Marcus writes a remarkable short story, having to do with a fire in a skyscraper; John Tolmator Poole writes a horse-race story; and William Hawley Smith contributes a rat story. George Pitch, Stephen Leacock and James Montgomery Flagg—all humorous writers—present stories and sketches.

"The 'Interesting People' and 'Interpreter's House'—regular departments—complete an excellent and beautifully illustrated number.

COUNTRY OF HIGH RENTS

Rentals on apartments and houses in the principal cities of Germany are rising faster than incomes, and as a result the percentage of house owners is steadily decreasing. A hundred years ago 70 per cent of all Berliners owned their own homes; now only 12 per cent do so. The average number of persons dwelling in one house in Berlin is 77, as against eight in London. Of all Germany's important cities only Lubeck and Bremen still cling to the one family house. Everywhere else apartment houses have become the rule.

CARD OF THANKS

We desire to return our heartfelt thanks to all our good friends, who sought by their unstinted sympathy, and gifts of flowers to lighten the burden of sorrow of the death of my wife, Mrs. Mabel Whitehouse.

TARIFF BILL WILL MAKE A
REDUCTION OF 27.64 PER CENT

Washington, July 18.—An average reduction of 27.64 per cent under the rates of the existing Payne-Aldrich tariff law is proposed by the Democratic Underwood-Simmons tariff bill upon which the senate began debate today according to the report of the finance committee majority submitted by the chairman, Senator F. M. Simmons.

The report also shows that the bill as reported to the senate provides rates 4.22 per cent lower than the Underwood bill as it passed the house. A salient feature of this bill, it is pointed out is the large increase of imports to be admitted free of duty.

Under the house bill the value of free listed imports on the basis of 1912 importations was \$103,000,000 whereas the Democrats of the senate in caucus, by sweeping changes propose to free that imports valued at \$147,307,000 an increase in dutiable imports over the house bill of \$44,307,000.

Upon the basis of ten months for the coming fiscal year the report estimates that the receipts from customs alone under the new bill will be \$206,730,000; from income tax for ten months, \$58,350,000; corporation taxes, \$37,000,000; internal revenue including tax on cotton futures of \$5,000,000, \$297,000,000, and that the revenue from all other sources will bring the total for the fiscal year to \$300,

\$10,000, with disbursements estimated for the committee by treasury at \$994,790,000.

RESOLUTIONS ADOPTED

Executive Council Chamber, Concord, July 11, 1913.

The following preamble and resolutions were adopted:

WHEREAS, the Weekly Publishers' Association have proposed to circulate the Public Acts and Resolves of 1913 as supplements with their newspapers having an aggregate circulation of over 100,000 copies at \$8 per one hundred copies, and

WHEREAS, said proposition was not made until an edition of 60,000 pamphlets had been printed and largely distributed by mail, and by city and town clerks, therefore be it

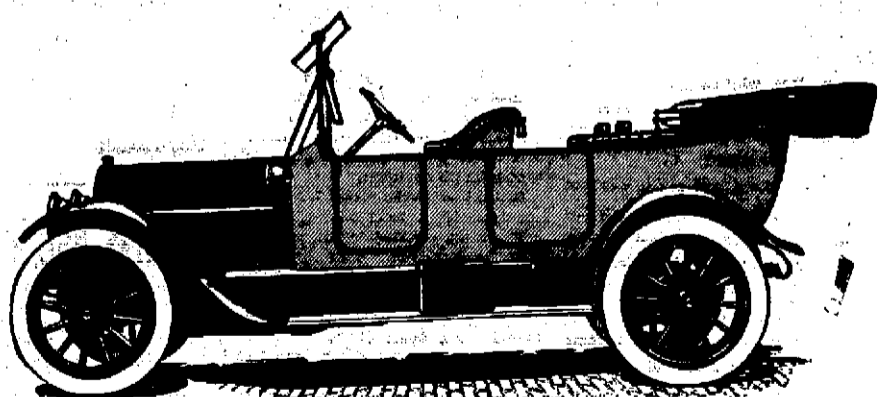

RESOLVED, that the additional expense would be too large, and the delay in completing the distribution too long to warrant the acceptance of said proposition by the governor and council at so late a date.

Medical Inspection.

"No educational movement in modern times has had more vital relations to the children, to the homes they represent, and to the nation, than medical supervision of school children and the general hygienic movement it typifies," says Dr. P. P. Claxton, United States Commissioner of Education, in a bulletin on medical inspection just issued for free distribution by the Bureau. The bulletin is an "annotated bibliography" of medical inspection literature during the past four years. It was compiled in the division of school hygiene and sanitation. It shows health conditions among school children in a number of different localities, thus making it possible for one community to find out readily what another community similarly situated has accomplished in solving health problems in the schools. The most significant reports that have been presented for various typical localities are summarized for reference. Among the topics treated are: Medical inspection of the eyes, ears, nose, and throat; dental clinics; training of school nurses; salaries of school medical inspectors; medical inspection records, etc. In his introduction Dr. Claxton points out that "although the work of medical inspection began in the United States less than 20 years ago, we are now in the midst of the most rapid development of this part of the public educational service."

Saving the Babies.

A noteworthy and cheering piece of news comes from New York to the effect that the baby death rate in the city is lower for the first two weeks of July than it has been for several years. As the weather has been quite as warm as usual at this season the lowered death rate is indicative of real progress in the care of the helpless little beings who have in the past been almost literally murdered by ignorance, carelessness and poverty. The better conditions are undoubtedly due to two sources. One of these is the spread of knowledge concerning the care of babies; the other is the campaign for better milk. It is probable that the average kindly intentioned person who has no expert knowledge or profound interest in civic improvement scarcely realizes what a tremendous fight has been carried on, often against seemingly insurmountable obstacles, by a few brave workers.—Providence Journal.

Sensible Uniforms for the Police.

A humane reader in a letter to the editor makes an appeal for more sensible hot weather uniforms for the police, and the appeal should not go unheeded. The present heavy blue uniform is largely a superstition anyway. Other public servants have got rid of it; the soldier has his khaki, a smarter uniform, by the way, than the blue ever was, while the postman goes about cool and more or less comfortable. No good end is gained by swathing an officer in wrappings of wool; it is unreasonable to expect that he will be as alert as if he were comfortably clothed. Logic is against it—lighter clothing should mean higher efficiency.—Chicago Record-Herald.

Influencing Voters.

Do not let it surprise you if some investigating committee uncovers the awful fact that congressmen have been sending garden seeds and patent office reports around the country to influence their constituents. Those investigating committees are out for business and everything is business for them.—Philadelphia Press.

Calendar Reform.

When the calendar is reformed in order to make the months of equal length, the reformers might well take advantage of the opportunity to change the name of Sunday to Slaughter-day.—Rochester Herald.

CALL TO THE NORTHEASTERN CONFERENCE OF CHRISTIAN WORKERS.

To meet in conference for the mutual interchange of plans and methods, and for the expression of different viewpoints, broadening the sympathies and stimulating to greater effort.

It is for this reason, dear friends, that in all the history of the Church, as well as in the Jewish economy, convocations and festivals have from time to time been held, bringing together prelates or ministers and laymen for deliberation concerning the things of the Kingdom of God. And where the emphasis is laid upon the essential of which the Reformation Church is united, the results, we believe, must always be quickening. It is in the expectation that his spirit will characterize the Thirty-first General Conference of Christian Workers

that we expect this invitation to hold people to gather at Northfield, Aug. 1-12.

Some of the speakers will be Rev. C. Campbell Morgan, Mr. J. M. Crawford, Rev. John Daniel Jones, Dr. L. C. Broughton, Rev. Rockwell Harmon, Rev. George R. Shaver, Rev. Charles Ingles, Rev. Robert P. Y. Pierce, Mr. Melvin Trotter, Rev. A. T. Robertson, D.D., Rev. John A. Hutton, M.A., and Rev. J. Stuart Holden. The coming of Mr. Crawford to the General Conference cannot pass unmentioned. For 23 years he has been hidden in the wilds of central Africa. He is the author of "Thinking Black," the most thrilling book in African missionary literature. He is known in England for his bold life and forced recognition by his sheer force, originality and personal magnetism. He comes to America for the

There are advantages even about hot weather if one is in a position to grab them. For instance, what youngster would mind with the heat if the day could be spent at the seashore, where cool breezes blow, there is a tantalizing surf in which to wade and swim, and in which to play? Here are pictures of little ones enjoying such frolics. Where were they made? At Conny Island, Atlantic City, Cape May, Old Point Comfort—any of the best. and last time, as he returns to Africa from here, never to leave his beloved black men. His wife was the first white woman to enter the German colony of Africa, and followed with him in the footsteps of David Livingstone to the interior, where he performed the famous service under the tree where the great man's heart was buried.

WHY NOT SPEAK UP?

Greatest as Well as Lowest of Us Welcome a Few Words of Enthusiastic Appreciation

How often after a play, a sermon, a concert that has stirred us, we feel the impulse to make known to an editor, preacher, or musician what it has meant to us. Yet how often the impulse perishes as the warm glow of the brilliant inspiration wanes, like a gift of water that runs and is lost to waste in desert sands and is lost.

It is so easy to let the word of enthusiastic appreciation remain unspoken, perhaps by a trivial accident, such as the absence of pen and ink to express our inclination. But had we written, had we said the word it might have been just the life that was needed toward the light and love and life itself for a soul that is struggling.

We think the eminent men and women so strongly poised, so independently secure, so broad and fortified that they need no flattery, that of course to bring them comfort, but it is not so. And because some people do not think, or else think and then forget, the one who gives generous regard to the feeling aroused, in the presence of the one who is aroused, it is a comfort and a reinforcement more than is realized except by the fired, grateful heart that is comforted.

"Encouragement" literally means putting a heart in a person. That is what the timely spoken word may do.

A young man whom fate had by the heels and consigned to take a protracted rest cure was frankly discouraged. The long life that ended and death about him seemed to have no use, no place for him. The future was as black as the bottom of a well. He cried out against the destiny that at the golden culmination of promise seemed to have relegated him among the failures and then fell.

Then there came a friendly, human sympathizing letter. It was from an old man, a good man of experience, it was an epistle and a philosopher. It reminded him of the line saying of Henry Vaughan, "I climb when I lie down," and made him to be the stronger life-affirmers for the combat with the earth. It concluded with the prayer that all his dreams with pa-

ience and waiting might come true. It gave him strength and the will to persevere and comforted the child, went back to his work again after rebellious heart. He recovered, and complete restoration to health and happiness.—Philadelphia Public Ledger.

CURRENT OPINION

MAN'S SUBORDINATION OF WOMAN.

If mothers can only point, not vote, the way, what assurance has she that father will follow her suggestion? Beside, if the mother knows best the problems of the home, if she is in a better position to study and comprehend the home just as he is the shop or office, why delegate the power to act to the one with less understanding and capability? Mrs. Shumway protests against women in politics, on the ground of their ignorance. Why oppose ignorance in one instance and favor it in another?

No person who knows of the splendid intellectual and social work of women in the world can agree with Mrs. Shumway's eighth "reason." To the effect that women are so low intellectually and morally that their enfranchisement would bring about a repetition of the long period of political disorganization, corruption, the evils of the carpetbag period of the South.

It is natural that the average man should wish to subordinate woman. He has practiced this for so many countless generations that it has become traditional with him. He wishes to handle the family money and to be the boss. He has even debauched her, and is doing so yet, for his gratification. Her many instances of surrender have been due to the fact that traditional education and custom in obeying have made it hard for her to think of herself as capable of opposition; and, because, possessing no efficient political power, she has been compelled to remain in an endurable position and to obtain fulfillment of her pathless wish, by resort unworthy of physical appeals.

History shows that the women of leisure, who have attempted to serve the public welfare by "pointing the way" to the men have seldom succeeded, except by sacrificing delicacy and honor, which was revolting to the sense, even of their own day and generation. They were compelled to choose between father and exerting that power conferred by nature, which men have been unable to take away. A few days ago a dispatch from Paris to a leading metropolitan daily reported that the "latest idea" in dress was transparent skirts and "theatrical tights," no underdraping, as indicated by the exhibition on the beautiful lawn of the Autaud race course. Such frivolity would be impossible to the daughters of women who had behind them some generations of training in the political arena, with the right to speak words of real power instead of cajolery. These poor women at Autaud doled in their diaphanous draperies, were simply playing their historical role of subordination to man, and of appeal, in the absence of political power, to the most effective means at their command to "point the way" to the lords of creation. Herbert Warhouse, Assistant District Attorney for Kings County, New York.

WITHDRAW THEIR DEMANDS

(Continued From Page One.)

discuss the letter received tonight from the roads. Both sides are marking time pending the calling of a meeting with the mediation board after its members have been confirmed by the senate. The men reiterated their purpose to demand that this meeting be held at once and indicated that a strike would be called within 24 hours after if the roads refused to sign a stipulation that only the men's demands was to be submitted for arbitration. The men hope the meeting with the board can be held today.

Seth Low, president of the National Civic Federation, addressed the railroad managers in conference today. He urged them to abandon any thought of submitting their grievances to arbitration at this time.

The strikers' representatives of the Biltmore, which road withdrew from the controversy after declaring that it could not afford to raise wages, did not hold their announced meeting today. It was explained that until it had been determined which questions are to be submitted for arbitration, the Biltmore is in the same position as the other roads. Until this point is settled the Biltmore representatives will take no strike action, it was announced.

RYE NEWS

The Misses Bryce and Wylie of Montreal are guests at The Elms, the boarding house managed by Mr. S. W. Foss of Rye Beach.

The members of the Crescent Club effected a surprise on one of their popular members on Friday evening, when they assembled at the home of Miss Mary Remick of Brackett road. Cards and music were indulged in, after which a lunch was served by the members of the club. The club presented Miss Remick with a handsome English tea kettle in recognition of the coming marriage of Miss Remick and Mr. Edmund Watson of Rye Beach. The wedding will take place in the near future. At a late hour the party dispersed, after extending heartiest wishes to the prospective bride. Among those present were: Misses Alice Brown, Marian Mason, Ardelle Marston, Lena Foss, Helen Drake, Gladys Munton, Dora Walker, Gertrude Remick, Frances Remick, and Mrs. Elizabeth Garrett.

MARRIED THIS AFTERNOON.

The marriage of Miss Nathalie Morrell Jorrell Kelley, daughter of Commander J. D. Jorrell Kelley, U. S. N., retired, of New York, and Mrs. Kelley, to Thomas McKown Clark, Jr., of Pittsburgh, will take place this afternoon at 4 o'clock in Trinity church, York Harbor, Me. Miss Kelley is a sister of Mrs. Joseph B. Russell, Jr., of Cambridge, who was Miss Jacquelynne J. Kelley. Mr. and Mrs. Russell will be present at the wedding. Another of Miss Kelley's sisters, Mrs. Stansbury Brady of Baltimore, will be matron of honor, and the list of bridesmaids includes Miss Hwondelyn Condon, Miss Genevieve Sanford, Miss Mercedes de Acosta and Miss Violetta Dancer, all of New York. James Scully, Jr., of Pittsburgh will be best man, and among the ushers will be Addison Souger of Pittsburgh, Walter Gleason, George Peabody and Edward Butler of New York. A reception at the York Country Club will follow the ceremony.

RAILROAD NOTES

Passenger officials of roads in Central Passenger Association held a meeting to discuss the situation created by the supreme court decision upholding 2 cent fares. It is believed by the roads that they will have to revise interstate passenger fares throughout the United States in order to conform to state made rates. The commerce commission has given them until May, 1914, to make the necessary readjustments.

ICE TABLETS FOR THE BATH

The idea of ice tablets is especially attractive these warm days, but the child character of the tablets is all in the name, for they are really just little tablets of congealed cologne and menthol which when dropped into the bath or even in a finger bowl for the dinner table make the most delicious softness to the water, together with a subtle and fascinating perfume. Twenty tablets come in a box and this is about the pleasantest way of taking an ice morning bath that has yet been heard of.

What Is Happening in the
Harbor Town.

Among those from out of town attending the funeral of Mrs. Myrtle Symonds on Thursday afternoon were: Dr. and Mrs. M. V. Safford, of Jamaica Plain, Mass.; John S. Frost and Mr. and Mrs. Willis G. Freeman of Dover, N. H.; Mrs. May Symonds of Portland; Mrs. Hannah Sullivan of New London, Conn.; Mrs. Priscilla Lewis, and Mrs. Frank Langley of Portsmouth; Mrs. George W. Todd, and Charles Symonds of Boston.

The boat stolen on Wednesday night from the Hotel Parkfield was picked up adrift on the following morning by Captain Lindsey of the steamer Queen City. The painter was neatly coiled in the bow, showing that she did not break adrift, but was doubtless stolen by some person anxious to board a craft in the harbor, or to cross the river.

PORTSMOUTH
THEATRE PROGRAMME

For Friday and Saturday

The Heart of a Gambler—Drama
Is another fine western drama that will appeal to all who witness it. Out of food he sends his little girl to the general store to get some, but she is refused.

The Sweet Box—Biograph
According to Dr. Swenham, there was only one cure and he proceeds to demonstrate it.

A Chinese Puzzle—Biograph
Is another comedy on the same reel. The phony Chinese cook runs off with the daughter to be married.

ACT—Chief Blue Sky, Indian novelty.
Put To the Test—Selig
This is a pathetic drama of an ambitious young singer who loses her voice, but finds it returned in her joy of motherhood. An interesting theme charmingly handled.

ACT—Trimount Trio, singing.
A Millinery Bomb—Vitagraph
The "creation" is a "dream". It turns out to be a fright. After the explosion of laughter everything happily subsides. Featuring Mr. John Bunny.

Solitaires—Vitagraph
Is another comedy on the same reel. Fake rumors and gossip lead to extremely funny complications.

The Two Little Kittens—Edison
A fine drama. She is accused of theft in a hotel where she was forced to seek employment.

SPECIAL:—For Monday and Tuesday: "A WILD RIDE." In two parts.

ARCADE ROLLOFF.

Jack Renner won the weekly rolloff at the Arcade alleys on Friday evening. The scores:

AERIAL PRIZE WINNERS

Upson, Watts and Honeywell to Represent United States in the International Balloon Races.

New York, July 17.—D. A. Upson, pilot of the Goodyear; John Watts of the Kansas City 11 and H. E. Honeywell of the Kansas City Post were officially announced by the Aero Club of America yesterday as having won first, second and third places, respectively, in the recent balloon race from Kansas City to determine the American entries for the International balloon races abroad next October. Upson, Watts and Honeywell will, therefore, be the American competitors. The distances covered in the recent race will be announced later.

IS THE RUBBER PASSING?

Less and less are women inclined to wear rubbers. Even the best of the latter detract from the spruce, correct look of the costume and rubbers on the feet make one feel as well as look a bit clumsy. Women, moreover have so many pairs of boots nowadays in comparison with the one or two pair that used to be deemed sufficient for a season that the getting of one pair muddy or wet does not so much matter. Tan boots are the accepted sort for stormy day wear and their is a new tan leather which neither mud, slush nor wet will stain and which does not acquire ugly black streaks across the instep from the rubbing of wet skirts. These boots may also be cleaned with a sponge and ordinary soap and water with no injury to color or luster.

OPEN EVENINGS.

BOARD OF PUBLIC WORKS MAKE MANY RECOMMENDATIONS

The semi-annual report of the Board of Public Works should be of interest to everybody and it is herewith printed in full.

Portsmouth, N. H.,
July 1, 1913.
To the Honorable Mayor and City Council,
Portsmouth, N. H.,
Gentlemen:

We have the honor to submit the report of this department from January 1, to July 1, 1913.

Highway Department

Owing to the open winter we found the streets and roads in bad condition. Lafayette, also Greenland road, we were obliged to resurface their entire length, also to resurface Middle Road from Middle street to the Portsmouth Plains. These roads were resurfaced with gravel from our pits. From observation, these roads in our estimation will not last more than two years owing to the heavy automobile travel. The section of State Road from Sugamore bridge

to the Rye line is completed. The Wentworth Road we are now top-dressing with trap rock which we think will last a few years. Boyd road has had a slight sprinkling of gravel over the elenders.

Sewers

We have had the usual amount of trouble with sewers. We find that a great many of the complaints of stoppage of sewers is caused by defective house connections, installed by careless or incompetent workmen.

The Vaughan street sewer which has caused considerable trouble during the past few years was uncovered in sections, the trouble being located on Hill street. We found two sewers on Vaughan street running parallel and turning into Hill street. Someone in making a connection with the sewer on Hill street, cut out a section of the first sewer so they could have a straight run to the sewer furthest from the house. That is what we found caused the trouble. We have had reported twenty-five

sewers stopped up, of which six were on private drains. There have been ten catch basins found plugged. Celars reported flooded, five. We have constructed seven hundred and fifty feet of sewer on South street, connecting with sewer on Middle street. This sewer is now ready for use. This Board would recommend that only a licensed drain layer, with an annual license be allowed to make connections with the public sewers. We find a great many places where sewers are not properly constructed, and a number of streets where there are no public sewers. The drainage from the water shed on Bennett street should have a separate drain running to the North Mill Pond, this would relieve the bad condition which now exists in that locality. The box sewer across the flats of New Castle avenue has been reconstructed its entire length.

Streets

Streets have received the usual amount of attention. Middle and Lexington streets have had temporary repairs so as to make them passable this season.

We have applied 50,000 yards of Tarmac to street surfaces, and also applied all to about 150,000 yards, where in our judgment it would be of the most value.

There have been a great many complaints entered at this office because of the dust and many of the citizens are disappointed because their streets have not been oiled. They do not understand that our appropriation would not permit us to oil all the streets.

Parks

Parks have not required anything out of the ordinary. We have planted very few shrubs.

The monument at Goodwin Park was taken down last year and stored at the city yards. We have had a steel frame made to place inside and reinforced with concrete. We are now working on the same and expect to have it erected in the near future. This work has been greatly delayed by the iron workers.

We have filled in the out-field on the baseball diamond at the playgrounds so that at the present time it is in fair condition.

The apparatus used by the children is in good condition. We would recommend that there be a toilet room installed in the playground for the lady supervisor. There should also be a drain laid to carry off water from around the edge of the tennis courts. This drain was recommended by us earlier in the season.

We have filled in the low places around the apparatus in Langdon Park.

Pits

We recommended earlier in the year that sand pits be purchased, and that it would be advisable for the city to acquire lot adjacent to the city's present gravel pit on Lafayette road.

Trimming and Spraying Trees

We have cut the bush on Bantlett and Sherburne Roads, also on Greenland Avenue, from wall to wall.

We have removed brown-tail moths from 3,643 trees on streets and highways. We have destroyed 6,900 moths on 2,301 trees. A larger amount of money will be required in the future if the pest must be taken care of.

Sidewalks

We have done considerable work on granite sidewalks. We think that if a little of this work is carried on each year, in time our sidewalks will be in good condition.

Water Division

On account of the hot month being so dry, we have had some difficulty in keeping up the pressure. The Dean pump which is used constantly was installed 20 years ago to pump out over two million gallons of water per day. It is now 21 years old, and we are sometimes obliged to pump more than two hundred thousand gallons over its estimated capacity. This condition we would ask your Honorable body to consider.

We would once more recommend the installation of meters to check the enormous amount of water wasted.

The condition of the pipes was called to the attention of the city council in 1911.

The status of the distributing system have given us but very little trouble, outside of Peverly Brook line. There have been but two breaks and a few leaks discovered. The main gates have been mended and oiled. Hydrants have been repaired, inspected and two replaced. No extensions have been made.

The horse troughs have been kept in good order, excepting the one on

DON'T BE MISLED.

Portsmouth Citizens Should Read and Heed This Advice.

Kidney trouble is dangerous and often fatal. Don't experiment with something new and untried. Use a tested kidney remedy. Begin with Doan's Kidney Pills. Used in kidney troubles 50 years. Recommended here and everywhere. A Portsmouth citizen's statement forms convincing proof.

Leslie Whitehouse, 7 Thornton St., Portsmouth, N. H., says: "About a year ago I began to have trouble from my back and kidneys. Often a sharp catch darted through my body and became so bad that I could hardly move. There was also a dull, throbbing ache across my loins and the kidney secretions were highly colored and contained sediment. Doan's Kidney Pills, procured at Phillips' Pharmacy, corrected my trouble and I have had no return of it."

For sale by all dealers. Price 50 cents. Foster-McBarn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—just take no other.

Noble's Island which is entirely worn out and abandoned.

The regular gang in kept busy most of their time on repairing and replacing old house services.

The total amount of water pumped during the last year (1912) was 637,000,000 gallons. The smallest amount pumped in one month was in November, which was 59,156,000. The largest amount pumped during one month was in July, being 64,490,000.

The high pressure water paid for by meter readings at the ten cent rate was \$3,561.47. High pressure paid for at twenty cent rate \$10,146.55. Poorly water paid for at ten cent rate \$7,887.72. Total received from metered water \$26,595.74. Total water metered 235,220,370 gallons. Percentage of revenue received from metered water: 47 1-2 per cent. Percentage of water metered, 36 per cent.

Number of unmetered faucets, 3,943; bath tubs 1200; water closets 2554; besides horses, cattle and minor other fixtures.

For the financial statement of this department we would refer you to the Auditor's report.

Respectfully submitted,

BOARD OF PUBLIC WORKS.

* THEATRICAL TOPICS *

* * * * *

Breaking all records for long runs "Within the Law" enters into the 4th week of its tremendously successful engagement at the Biltmore Theatre, New York. Helen Ware and the balance of the excellent cast continue to win public favor. The theatre's continuing popularity adds to the comfort of its patrons and souvenir fans are given away at each performance. Seats are now selling for a special matinee on Labor Day, when the play will approach the date of its first anniversary in New York.

Announcement was made some time ago by the American Play Co. about a special matinee of "Within the Law" to be given by ill-fations. The management is receiving quite a number of applications for the different roles. A letter from a diminutive actor is as follows:

July 5, 1913.

"Gentlemen—If you have not already filled the cast for the parts in 'Within the Law' to be played by a diminutive cast, I would be glad to play the part of Inspector Burke or the Chicago crook. My name is Pat Walsh, height 3 feet 10 inches. I am a member of David Belasco's 'Good Little Devil' company. Have played MacGregor, an old Scotch farmer in Lew Fields' 'Bunny Bells and Stripes', and have a voice that carries. Hoping to hear from you.

Respectfully yours,

(Signed) Pat Walsh,

113 Clinton Ave., Brooklyn, N. Y."

"Within the Law" has proven more than an American success as it is equally popular in England and Australia. One has to see the play to know the effect it has on the masses, who understand the injustices of some of the department stores and the grafting interference of some of the police. Every scene of the play has been verified in court—often the similarity has been remarkable. Only last week the heroine who works "Within the Law" was matched by "The Wolf of Wall St." Removed from the coincidences to England and Australia, the play stands upon its merits as one of the strongest melodramas ever written.

THE NEW JURY LIST

The following is the new jury list which has been called to hear jury cases in superior court beginning July 21:

Atkinson, Harold N. Cross; Derry, Lawrence C. Sargent; Gus Lawrence and Lolo C. Frost; East Kingston, Charles F. Knight; Exeter, Frank H. Shafford, Walter S. Peaslee, Albert L. DeMerritt, Howell M. Lamprey; Hampton Falls, James H. Brown; Kensington, George A. Prescott; Kingston, Oscar A. Beede; North Hampton, Thomas E. Marston; Portsmouth, ward 1, Gordon B. Ladd; ward 2, George P. Drew; William W. Col-

ton; ward 4, Austin S. Trefethen; ward 5, George O. Smith. In all there is a list of 20 jurors, and ten towns are represented.

FAREWELL

Farewell! but whenever you welcome the hour

That awakens the night song of mirth in your bower

Then think of the friend who once welcomed it too.

And forgot his own grief to be happy with you.

His griefs may return, not a hope may remain.

Of the few that have brightened our pathway of pain,

But he never will forget the short vision that threw

His enchantment around him while lingering with you!

And still on that evening when pleasure fills up

To the highest top sparkle each heart and each eye.

Where'er his path lies, be it gloom or bright,

My soul, happy friends, shall be with you that night.

Shall join in your eyes, your sports, and your smiles,

And return to me beaming all o'er with your smiles.

Too blessed if it tells me that 'mid the gay cheer

Some kind voice had murmured, "I wish we were here!"

Let fate do her worst, there are red cannot destroy.

Bright dreams of the past, which she cannot destroy.

Which come in the night time of sorrow and cure,

And bring back the features that joy used to wear,

Long, long be my heart with such memories filled!

Like the case in which roses have been been distilled.

You may break, you may ruin the vase if you will,

But the scent of the roses will hang around still.

—By Thomas Moore.

NEWINGTON

Mr. Everett Hanson and family of Mattapoisett, Mass., are passing a few weeks with Mrs. Hanson's brother, at her former home.

The annual gift of books from Mrs. Woodbury Langdon have been recently received, and are now being distributed. Mr. Langdon is planning to enlarge the library in the fall by building an addition on the back.

The friends of Mr. Cyrus Frink are glad to see him about once more.

Mrs. Harriet Hoyt has recovered from her recent illness and her daughter, Mrs. Foss, has returned to her home in Rye.

Mr. Jeremiah Towle of Newmarket passed Wednesday with his brother and sister.

Harold Hodgdon of Portsmouth is passing his vacation with his aunt, Mrs. Albert Hodgdon.

Mrs. Lydia King of Portsmouth is passing the summer with Mrs. Harriet Hoyt.

Several deer have been seen in different parts of the town and because of their making themselves free with all garden vegetables, the farmers have little regard for them.

The rains have been heartily welcomed by everyone and it is to be hoped that vegetation will take a fresh start.

Miss Mildred Dorne of this town and Mr. Staples of Portsmouth were united in marriage on July 4. They will reside with the bride's mother, Mrs. Annie Dorne. The young couple have the best wishes of a large circle of relatives and friends.

The several committees are busy with making arrangements for the big fair to be held at Grange Park on Sept. 1. Following are the names of the chairmen of the different committees: Marshal of the day, F. E. Lathin; superintendent of hall, Mrs. Ella Lathin; horse department, Lewis C. Beane; cattle department, Charles A. Badger; swine and poultry, F. E. Lathin; vegetables, F. W. de Rochemont; fruit, Cyrus Frink; grain, James W. Coleman; household, Mrs. Edith G. Hoyt; flower, Mrs. Annie Pickering; funny work, Mrs. Margaret Harrison; sports, Simon Frink; music, Mrs. Beth Hunt; parade, R. Clyde Margeson; entertainment, Mrs. Winifred Hawke; booths, Mrs. Ella Lathin; letting of booths, Lewis Harrison; transportation, Lewis C. Beane; food, Mrs. Abbie Beane and Mrs. Emma Pickering. Premiums are offered in each department and competent judges will award the prizes to the different competitors, of which Mr. Edwin Hawke is chairman.

RIOTING SAILORS MAKE TROUBLE

(Continued from page 1)

terit has insisted that the meetings did not violate the law.

During the Golden Pothatch celebration, hundreds of men from the Pacific reserve fleet were given shore leave and yesterday many soldiers from Fort Jackson and Fort Myer were at liberty. A number of soldiers and sailors got into a fight with men attending an Industrial Workers' meeting last night, and three soldiers were beaten, two of them so severely as to require dressing of their injuries.

Shortly before last midnight, Secretary of the Navy, Josephus Daniels, addressed a banquet given at the Statler Club in his honor, spoke in tribute of the American flag and on occasion to praise the attitude of the Mayor of Boston who stopped a red flag parade.

Red Flag Has No Place

"The red flag has no place in this country," he said, "and hereafter in it have no place in this country. A mayor who does not enforce the law against the red flag is not fit to hold office, and people who believe in the red flag should be driven from the country."

Mr. Daniels' remarks occupied only a minute, and those who observed him closely saw that he had no intention of making them apply locally. However, word was passed about the street today that the secretary had made a long address, devoted to the two flags and had urged that all believers in the red flag be driven out of the country. It was also declared that he had made a direct attack on Mayor Catterill, who sat directly behind him.

The fact that the mayor accompanied the secretary from the banquet to the press club reception, and had been with him during much of his stay.

It is believed that Mr. Daniels had no knowledge of any Seattle controversy over the red flag.

A New and Decidedly Progressive Development in Motor Car Construction Will Distinguish the 1914 Cadillac.

THE FIRST EPOCH—Eleven years ago the Cadillac Company produced the first practical and durable motor car in large numbers.

THE SECOND EPOCH—Five years ago the Cadillac Company, by massed production, scientific standardization and advanced manufacturing methods, was the first to demonstrate that it was possible to produce a high grade, powerful motor car to sell for less than \$2000.

THE THIRD EPOCH—Two years ago the Cadillac Company made possible a realization of the motorist's dream by being first to introduce an electrical cranking and lighting system which furnished to pulchritude forever the awkward crank and the inefficient illumination.

THE FOURTH EPOCH—And now a fourth epoch, a fourth period of progress, an important one, is proceeding. It is soon to be inaugurated.

TERMS OF AGREEMENT BETWEEN CARPENTERS AND BUILDERS

Owing to the conflicting reports as to the terms on which the carpenters' strike was settled, the Chronicle publishes the agreement made between the Master Builders' Association and Local No. 921, U. B. of C. and J., which is as follows:

Agreement: Between the Master Builders' Association of Portsmouth, N. H., and the United Brotherhood of Carpenters and Joiners of America (with headquarters at Indianapolis, Ind.) through L. U. 921 of Portsmouth, N. H.

Witness: That the party of the first part, in consideration of this agreement herein made by the party of the second part, with the arbitration plain attached, agree with the United Brotherhood of Carpenters and Joiners of America as follows:

First: That eight hours shall constitute a day's work. All over eight hours to be paid for at time and one half. Double time for Sundays and the following holidays: Decoration Day, Fourth of July, Labor Day, Thanksgiving and Christmas.

Second: That wages shall be forty cents per hour for all qualified mechanics. Apprentices and members having dispensations, same shall be as marked on working cards.

Third: No member of the party of the second part shall take work before or after regular hours, nor shall he do work for others than recognized contractors, unless he charges the same rates as charged by contractors. Violation of this section shall after due process of our laws subject the offending member to fine or expulsion.

Fourth: The party of the first part shall have the right to hire and discharge whomsoever they see fit, always with the understanding that members of the U. B. C. & J. of America shall have preference, when same can be procured.

Fifth: The party of the first part agree that they will use every honorable means to have men in their employ who are qualified mechanics join the U. B. C. & J. of America.

Sixth: The party of the first part shall have the right to hire and use laborers in and about the buildings. Provided that laborers do no work requiring the use of carpenter's tools.

Seventh: All parties to this agreement hereto agree that all disputes between an employer on one side and any member or members of L. U. 921 on the other side, during the life of this agreement shall be settled in the following manner: There shall be no cessation of work (whether strike or lockout) pending settlement. Arbitration Board to consist of one employer and one Employee (member of L. U. 921). If they fail to effect a settlement, these two shall select a third party agreeable to both, who shall render a decision, whose decision shall be final and binding on all parties to this agreement.

Eighth: Parties desiring any change

SOUTH LOSING ITS CATTLE

Western Ranchers Buying Them Up and Warning Is Given

During the last twelve months cattle buyers have been active in Louisiana, Alabama, Georgia and Florida, purchasing cattle to be shipped to the middle western markets as either canners or stockers. The price paid for canners during this period have been so high that thousands of cows and heifers have gone to the slaughter. This was noticeable when the receipts of Southern cattle at the St. Louis market for the last year were compared with any previous period. The receipts of Louisiana, Mississippi and Louisiana cattle at that market had almost doubled.

Since the first of February buyers from the farms and ranches of the great South have been busy in Louisiana, Alabama, Georgia and Florida, purchasing cattle to be shipped to the middle western markets as either canners or stockers. The price paid for canners during this period have been so high that thousands of cows and heifers have gone to the slaughter. This was noticeable when the receipts of Southern cattle at the St. Louis market for the last year were compared with any previous period. The receipts of Louisiana, Mississippi and Louisiana cattle at that market had almost doubled.

Recently there were some cattle unloaded at one time at Birmingham, Ala., for feed, water, and rest while en route to the western ranges than have ever been seen there before in one day. Georgia and Florida are sending out thousands of these native southern cattle now at prices ranging from \$15 to \$25.

Some people of the south, the agricultural department learns, seem glad that these cattle are being shipped out as the number of scrub cattle is being reduced and the south expects to get better cattle as a result. It is being warned, however, that if the shortage of cattle is such as to cause buyers to come from the far west to buy these scrub cattle for breeding purposes, the chances of southern farmers raising their pastures with good cattle are small.

The south is said to be adapted to cattle raising, because of the long grazing season, the enormous area of cheap land, much of which is now lying idle; the great variety of pasture grasses and legumes which grow luxuriantly on all soils and because of the mild winters. It is argued that if the western ranchman can afford to pay southern farmers good prices for cows, pay the high freight rates to the west, stand the losses which naturally occur during shipping thin cattle such long distances, also bear the losses due to a change of climatic conditions, and then make money on them, why should not the southern farmer, who already owns the cattle as well as the grazing lands, keep this stock on the farms and get greater profits. The farmers of the south are therefore urged to discontinue the whole-

sale shipping of their female cattle to other states, to free the pastures of the cattle tick, and to increase the number and quality of their cattle.

FIRST RURAL COMIC OPERA

"The Courtin'" With the Same Country Characters As in Quincy Adams Sawyer, Will Be Elaborately Produced at the Boston Theatre

James Russell Lowell's famous story of the courtship of Huldry and Zekle was told in his memorable poem "The Courtin'". It was repeated in the form of a novel when Charles Felton Pliginskii wrote his widely read story of Quincy Adams Sawyer, and then it found its way onto the stage in the form of a New England country play under the same title by the dramatization from the pen of Justin Adams. We shall now see these charming country characters again in the comic opera taken from the same source, to be elaborately produced under the title of "The Courtin'", at the Boston Theatre for a limited engagement, beginning Monday, Sept. 15. There is great promise in the success of this new venture in the fact that the book and lyrics of "The Courtin'" are written by Charles Felton Pliginskii who wrote the successful novel, Quincy Adams Sawyer, and by Justin Adams who made the dramatization which has had so many long and brilliant runs at this same theatre.

Among the characters in "The Courtin'" will be: Deacon Parker, Huldry's father; Zekle, a young farmer, Huldry's beau; Ezekiel Hawkins, the village music master; J. Quincy Sawyer, a young lawyer from Boston; Reuben Green the hired man; Huldry the prettiest girl in town, and Zekle's sweetheart; Patience Plummer, the town constable; the town bully, the base singer in the church choir, the postmaster's son, the boy who pumps the church organ, a clerk in the village store, the spot master, the village blacksmith, the doctor's son, a young "wilder", the postmaster's daughter, the girl who sings soprano in the church choir, Jonathan Small's twins, the poorest girl in town, the village milliner, the schoolmarm, and so on. These are written by George Owen Tracey who has had so much of the charm and character of Pinafore.

SUBMARINE RISES FROM DEPTH OF 200 FEET

Crew of the Swedish Craft Have Remarkable Escape—Lead Keel Detached When Vessel Is On the Bottom.

Stockholm, Sweden, July 18.—A terrifying accident to a Swedish submarine, which sank with her crew like a stone, in 200 feet of water on July 2, has just become known, despite official reports to keep the affair secret. The submarine was practicing outside the harbor when, by a mistake all of her tanks were filled simultaneously and she sank to the bottom. The pressure was enormous and the water began to dent the hull. Desperate measures were necessary and Lieut. Beckman in charge of the boat ordered the lead keel detached. When this was removed the boat rose to the surface and the shaken crew drew in great draughts of air. It is stated here that never before has a submarine risen to the surface after sinking to such a depth. Instantly D-I

Charles W. Coleman

The funeral services of Charles W. Coleman were held at two o'clock on Friday afternoon from the Court Street Christian Church, Rev. Percy W. Caswell, the pastor officiating. Interment was in the family lot in the proprietors' cemetery under the direction of H. W. Nickerson.

NAVAL COMMITTEE UNABLE TO ATTEND BANQUET

President William E. March of the Board of Trade and Merchants Exchange received a reply from the invitation of the House Naval Committee, to be the guest at a banquet, at the Hotel Wentworth on Monday evening, that they must decline the kind invitation owing to lack of time.

The invitation reached the committee at Newport, R. I. After looking over the schedule the committee found that they would not be able to spare the time. They stated that they would arrive here Monday morning and would spend the day making the inspection and would have to leave the yard that same afternoon for Lamolue, Me.

This is considerable disappointment to the Board of Trade and Merchants Exchange, who were planning for a banquet at the Hotel Wentworth, so that the members of the committee could meet the business men.

LIFE SAVING DEVICES.

First International Exposition Will Be Held in New York in December.

Following the usual international practice there will be five grades of award, a grand prize, gold, silver, bronze and honorable mention, for the best safety, life saving and health promoting devices in every industry at the First International Exposition of Safety, to be held in New York City, December 11 to 20, 1913, under the auspices of the American Museum of Safety.

In each case the diploma stating the grade of award will be accompanied by a medal. The prizes, which are now being selected, will be composed of eminent scientists, technicians and industrialists. In the industrial field the prizes will have the award on competition, but in the non-industrial and non-commercial fields, such as welfare work, educational, philanthropic and hygienic institutions, hospitals and sanatoria, improved housing, recreation, and in a word everything which is included in social economy they will receive such awards as the jury should vote upon.

The directors of the Museum of Safety believe that these awards will be a powerful stimulus for industrialists to devise the best methods of accident prevention and health promotion and that they will at the same time stimulate inventive ability.

Safety and health promotion in every branch of American industrial life—manufacture, transportation on land and sea, engineering, mining, in all of their subdivisions—will be represented at this Exposition. There will also be exhibits from many of the twenty-one Museums of Safety in Europe, showing the progress that has been made abroad in the conservation of human life. President Arthur Williams of the American Museum of Safety is now abroad studying European industrial life and his observations will be embodied in the coming Exposition.

OLD HOME WEEK.

Will Be Few in This Section
This Year, It Is Said.

Old Home week celebrations in this section will probably be few this season, as the one which has been held annually at Stratham since the custom was inaugurated will probably be discontinued. Stratham has lost the electric road which ran through that town from Exeter to this city and this reason is said to be the cause of no arrangements for the festival. The road carried hundreds to the celebration and in years past some of the leading men of the state have been ardent. The celebration in 1911 was marked by the speaking of John Kendrick Bunge. None of the other surrounding towns have arranged for one this year.

TRUTH IN THE WILDERNESS—American.

A remarkable story of the plains in two reels. An inspiring production of adventure and romance.

Sale in Jail

Is Keystone three comedy which will create an uproar of laughter every minute.

SONG—Parisian Ball

Miss Margaret Pearson

A Husband's Mistake—American

A young wife gives her husband's necktie present to her brother, unbeknown to her husband. He accuses her of infidelity, she grows angry and leaves. How the skin of their destiny was unweaved makes a delightful love story.

The Shadow of the Past—Majestic

A story of great heart interest, showing the startling adventures of a country girl in the big city.

SONG—The Cures of An Aching Heart.

Miss Margaret Pearson

For the Man She Loves—Thamhouse

An excellent story of the West, portraying the thrilling courtesy of a ranchman's daughter, by rival cowboys.

The Herald Hears

That the police are once more having their troubles with petty thieves.

That the money for Firemen's Day is coming in good.

That the day ought to be a big one for the men.

That the Portsmouth Hospital management are considering whether it will be Decoration Day, a Tag Day, or lawn party.

That the new boat at the fort is a beauty.

That the craft is the largest that has been stationed there since the establishment of the coast artillery.

That the members of the Epworth League of the Methodist church of Hildesford, have established a new feature in the amusement line.

That they recently held a midnight picnic on the sands at Old Orchard Beach.

That there may be nothing in a name to some people but the bank people do not look at it that way.

That the inmates of the New Hampshire state prison are to enjoy ball games.

That spooners say that they will take a chance on the cemetery wall except on moonlight evenings.

That a New Jersey school is to teach the art of milking cows.

That the milk maid will be more attractive than ever.

That it is hoped she will not confine her milking to Jersey cows alone.

That the veteran firemen are starting a baseball team.

That if the team is picked, and can get in some practice before the firemen's day, the red shirts will enjoy playing a game with the regulars.

That the maiden members of the Crescent Club of Rye would not mind doing a little business with "Dan O'Neil."

That they would also like to own one of those nice English tea kettles.

That the town has always had the reputation of having a corner on the pretty girls.

That several Portsmouth boys are going to hustle to get a knockdown in the fair mulls of the seaside village.

That the Rye boys better get a move on or all the girls of the town will be taking a residence in Portsmouth.

That the Crescent Club are delighted with the brambles made by one of the members.

That a preacher says that young men calling on their lady friends on Sunday evening should be led to church.

That if the minister will only wait a while the girls will attend to that part of it.

POLICE NEWS.

Wholesale Junk Raid

A half dozen boys were brought to the police station today in connection with a wholesale stealing of junk from the Portsmouth Gas Company's property on Bow street. The steal was made before July 4 and by the looks of the building those kids must have had plenty of cash to purchase the necessary articles of noise that go with the glorious Fourth. The job was done where two buildings connect and the load was stripped from one end to the other. It is estimated that they tore off and carried away nearly 200 pounds of this metal. The company had no knowledge of the raid until Friday when it was discovered that the rain was leaking through the building. Investigation showed that there was nothing left that looked like lead, and it had been removed with as much care as a mechanic exercises on such a job.

It is evident that the boys had no trouble in disposing of it as a good part of it was later found in some junk shops, the proprietors of which will be brought into court for purchasing the stolen property from thieves.

Three of the boys were held and will be tried in juvenile court on Monday.

He Was in the Navy

The police were informed in a communication today from the navy department at Washington that Roy L. Bates, now under arrest at Port Wayne, Ind., who passed a bogus check for \$62, here on May 12, was formerly a navy man and under the name of James Sydney Bates, he was dishonorably discharged from the service in March, 1911. Since that time he has committed forgery in many parts of the country and finally landed in the arms of the police at Chicago. A warrant for his arrest has

been placed in the hands of the police at Port Wayne, Ind. by the authorities here, but it is likely that Bates will pass many years behind the bars before the local police can get at him.

Charles Hurd for drunkenness was sent to the county farm for a term of sixty days by Judge Torrey in the district court today.

Five other simple drunks got a chance to reform and were released without a hearing.
